- | Upgrade

Expand the capabilities of your printing equipment.

Take your Manta | Manta White | Octopus II printer to a higher level. Double your productivity and improve your print sharpness at the same time!

Qres Technologies s.r.o. now offers the opportunity to boost your printer's performance with the most up to date print head technology from Konica Minolta. The KM1024 series print heads double the number of ink jet nozzles, and print with a smaller 6pL droplet size.

### | Upgrade variants

Qres upgrades are available in five variants depending on your desires:

- |                            |                |
|----------------------------|----------------|
| 1 x CMYK + White           | 5 print heads  |
| 1 x CMYK + White + Varnish | 6 print heads  |
| 2 X CMYK                   | 8 print heads  |
| 2 x CMYK + White           | 9 print heads  |
| 2 x CMYK + White + Varnish | 10 print heads |

### | Installation of upgrade

Qres upgrades are installed on-site in less than 2 days to minimize your production disruption. The upgrade package includes pre-installation inspection of the printer, upgrade installation, printer calibration, maintenance instructions and operator training.
