

# KEENCUT

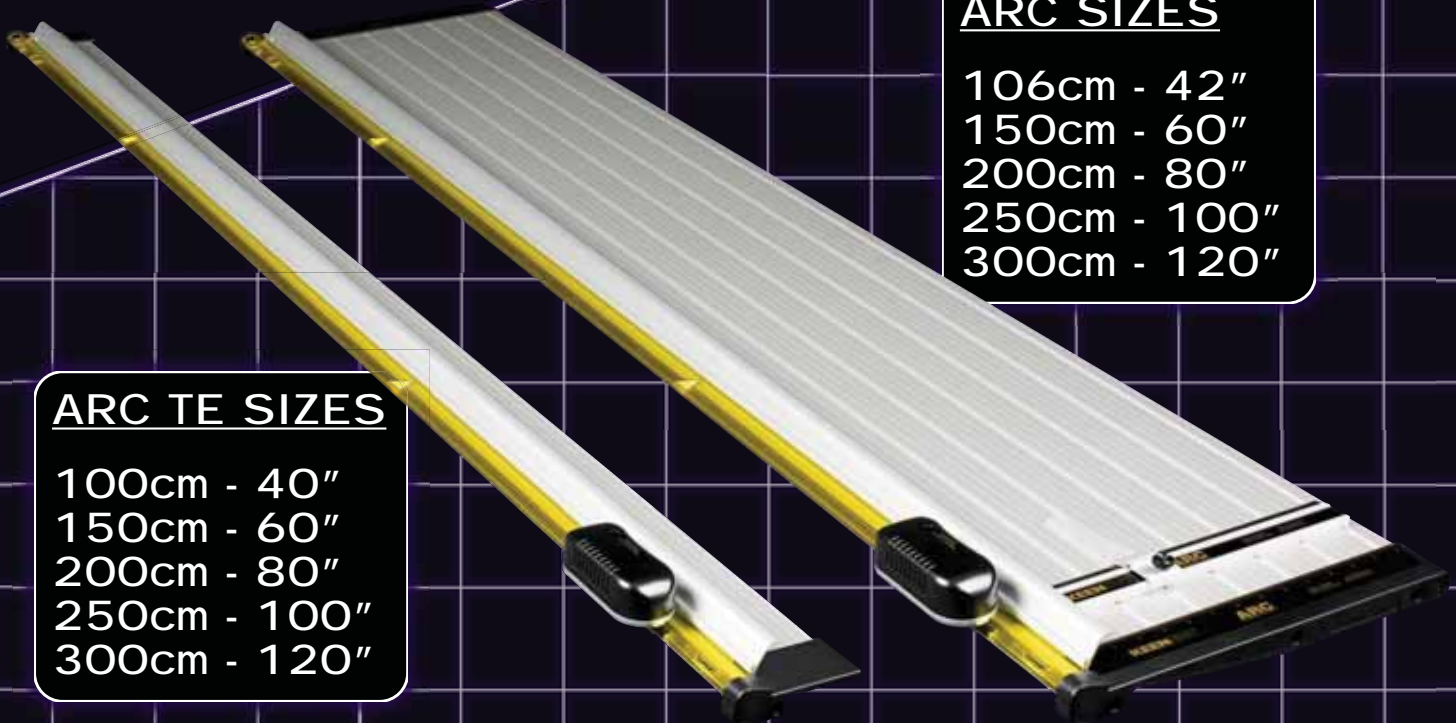

THE WORLD'S FINEST CUTTING MACHINES

## arc & arc te

Once in a while a truly innovative tool is introduced that is so obviously technically superior that it evokes the question "why didn't someone think of that before". Keencut TECHNIC is just such a product. Remarkably different to any other rotary cutter, the Keencut Technic is the culmination of 34 years experience in the design and manufacturing of world-class advanced cutting machines.

Made possible with the astonishing power of computer-aided design, Keencut's patented "advanced rotary cutter" system eliminates the instability of overhead rail cutters. The unique sub-surface monorail bearing system gives a clear view of the cut line. The mechanism cannot distort under heavy cutting pressure. Two clamp rollers provide secure double clamping during cutting with up to double the gripping effectiveness of any other rotary cutter. The two tungsten steel cutting wheels give unrivalled performance and long life with two-way cutting on every one of the 13 models in the range. The Technic is available in sizes from 30.5cm (12") to 305cm (120"). Models from 76cm (30") upward feature a wide entry clamp and an adjustable squaring arm as standard.

A derivation of the Technic ARC is the TECHNIC IE. Designed to fit the edge of any work surface, the IE (table edge) will turn the most basic workbench into a superb cutting table ideal for large format materials. The IE cuts in both directions and has the added advantage of increasing the working area to enable easy alignment and effortless single-handed trimming. The TECHNIC IE is available in five sizes from 100cm (40") to 300cm (120")

### ARC SIZES

106cm - 42"  
150cm - 60"  
200cm - 80"  
250cm - 100"  
300cm - 120"

### ARC TE SIZES

100cm - 40"  
150cm - 60"  
200cm - 80"  
250cm - 100"  
300cm - 120"

# Features

- ▶ 5 year Guarantee
- ▶ Cuts easily in both directions
- ▶ Twin rotary blades and full-length fixed blade strip
- ▶ Screws to the edge of an existing workbench (TE only)
- ▶ Two integral roller clamps and full-length fixed blade strip
- ▶ Integral aluminium base-plate with metric parallel indents
- ▶ Innovative and unique sub-surface monorail bearing system
- ▶ Aluminium anodised base for strength and life long good looks
- ▶ Optional extended squaring arm (91cm - 36") for improved accuracy and versatility
- ▶ Purpose-built stands with waste catcher and roll-feed bar; available as an optional accessory

Stands

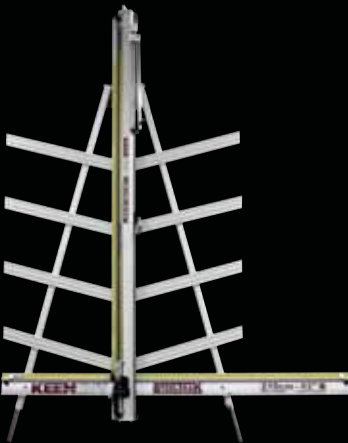

## Stand Sizes

KX43 - Stand, Waste Catcher & Roll-Feed Bar for 106cm (42") cutter  
KX46 - Stand, Waste Catcher & Roll-Feed Bar for 150cm (60") cutter  
KX47 - Stand, Waste Catcher & Roll-Feed Bar for 200cm (80") cutter  
KX48 - Stand, Waste Catcher & Roll-Feed Bar for 250cm (100") cutter  
KX49 - Stand, Waste Catcher & Roll-Feed Bar for 300cm (120") cutter

Ky43 - Stand only for 106cm (42") cutter  
Ky46 - Stand only for 150cm (60") cutter  
Ky47 - Stand only for 200cm (80") cutter  
Ky48 - Stand only for 250cm (100") cutter  
Ky49 - Stand only for 300cm (120") cutter
